WISTAR'S BALSAM OF WILD CHERRY.

COUGHS, HOARSENESS, INFLUENZA, Sore Throat, Colds, Whooping Cough, Croup, Liver Complaint, Bronchitis, Asthma, Bleeding of the Lungs, and every affection of the Throat, Lungs and Chest, are speedily and permanently cured by the use of DR. WISTAR'S BALSAM OF WILD CHERRY. This well known preparation does not dry up a cough and leave the cause behind, as is the case with most medicines, but it loosens and cleanses the lungs and allays irritation, thus removing the cause of the complaint.

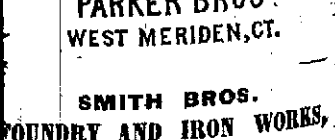

Consumption Can be Cured by a timely resort to this standard remedy, as is proved by hundreds of testimonials received by the proprietors. None genuine unless signed I. BUTTS, SETH W. FOWLE & SONS, Proprietors, Boston. Sold by REDINGTON, HOSTETTER & CO., San Francisco, and by dealers generally. s20l3law

Savings! Savings! FIRST NATIONAL BANK OF PORTLAND. SAVINGS DEPARTMENT.

THIS BANK HAS ESTABLISHED IN CONNECTION with the general Banking business a SAVINGS DEPARTMENT, and will allow Interest on Coin Deposits made in accordance with the conditions adopted by the Association.

In establishing a SAVINGS DEPARTMENT this Banking Association has in view the benefits to accrue to a class of persons having small sums to loan, by providing a safe place of deposit, ample security and fair rate of interest, as well as to aggregate and bring into use idle capital.

For the safety of deposits in this Bank are pledged its entire capital and resources, and also the personal liability of its Directors and Stockholders, as provided by Section 12 of the National Currency Act, approved June 3, 1864, a greater security than that given by ordinary Savings Banks. Printed copies of the conditions upon which deposits are received may be had upon application at the Bank.

DISPATCHES TO THE OREGONIAN.

BRITISH COLUMBIA.

From Victoria.

VICTORIA, Nov. 28.—Thos. Stephenson, who with forged pass-book and checks obtained money from several banks in this city, pleaded guilty to the charge of obtaining money under false pretences and will receive his sentence to-morrow.

The steamship *Idaho* will sail for San Francisco this morning.

H. M. S. *Sparrowhawk*, was sold at auction on Tuesday last to Messrs. Corbett & Macleay of Portland, Oregon, for twenty-thousand dollars.

VICTORIA, Nov. 29.—The following are the gold shipments per steamship *Idaho* yesterday: Bank of British Columbia, $80,000 05; Bank of British North America, $18,463 42; Wells, Fargo & Co., $16,699. Total, $115,727 47.

The Hudson Bay Co's, steamer *Otter* arrived yesterday from the Skeena, with about one hundred and fifty passengers, most of whom had gold dust. The total amount of dust brought by the *Otter* is stated to be one hundred and fifty thousand dollars. She also brought a valuable cargo of furs. No gold quartz or silver leads had been discovered.

Benjamin Evans and Peter Arthur from Omenica, were arrested and sent east for trial on a charge of burning houses and robbing them of their contents.

Three men named Fuller, Collins and Dolley, were drowned in the Skeena by the upsetting of their canoe. One hundred and fifty ounces of dust were lost at the same time.

THE TERRITORIES.

There were six sea-going vessels in the harbor of Seattle on the 24th inst.

Horse racing is a favorite Sunday amusement with the young men at Olympia, says a local paper.

A Mormon bishop named Hatch is a representative elect of Oneida county, in the Legislative Assembly of Idaho.

Passengers are now carried on the route from the railroad terminus at Tenino, W. T., to Olympia for 50 cents each.

The defeated candidate for Auditor in Walla Walla county, has commenced proceedings to oust his successful competitor.

Washington Territory, at the recent election, went strongly against calling a Convention to form a State Constitution.

A colored man named Peter Kelly, and a forest maiden named Betsy, were joined in marriage by Rev. Mr. Dickey at Olympia a few days ago.

Wood is wood in Walla Walla in the winter and wont sell for less than eight dollars a cord. Last week "bulls" in the market tried to put the price up to $15, but failed.

The County Commissioners of Walla Walla have authorized the Auditor to receive bids for furnishing 450,000 brick to be used in building a new Court House and jail.

On the 23d the weather at Walla Walla had moderated, the snow was melting and it was thought that a few days would leave the ground again bare of its white mantle.

The bark *Mary Bell Roberts*, which arrived at Seattle from San Francisco last week, had a lot of freight for Cowlitz, near the Columbia river, which will be sent from Olympia overland. This is the first shipment of goods by this route.

A man about 40 years of age, who registered his name at the Occidental Hotel, Seattle, about a month ago as "Richard Fay, Philadelphia," and has been a guest of the house ever since, was found dead in his bed on Sunday morning, the 25th inst.

A number of persons who have come down lately says there is no snow north of Snake river. In that country the weather has been very pleasant in day time, while at night they had nothing worse than heavy frosts. The grass is reported as good and the stock doing well.

Secretary Boutwell has decided that in Washington Territory ports a receipt for the payment of all legal fees accruing on any ship or vessel must be produced to the Collector before clearance, in accordance with the last proviso of Sec. 93, Act 2d March, 1799. This would embrace the fee for pilotage under the law of the Territory.

The Walla Walla *Union* says: "Last week some of those who have been engaged in railroading, came up on the steamer to Wallula, and then started across the country along the line of the N. P. R. R. Co.'s survey, toward the Pen d'Oreille lake. Their object is to examine the route with a view of putting in bids for contracts next spring."

The Walla Walla *Union* says: "A few days since a telegram was received here from a Chinaman in the Dalles, stating that Lung You, the Chinaman who was accused of murdering one of his countrymen at this place last week, had been captured and detained at that place. This is another case of mistaken identity, as Lung You has been in our county jail ever since the day after the killing."

The British *Colonist* of the 26th has the following account of the evacuation of San Juan Island by the British garrison, and its surrender to the American troops: "H. M. S. *Scout* and *Petrel* arrived at Esquimalt from San Juan Island yesterday, having on board Captain Delacombe and family, Lieutenant Sturt and family, and the men comprising the British garrison at San Juan Island, and all the guns, ammunition and stores connected with that establishment. The barracks and commandant's residence were handed over to the American force at 2 o'clock P. M., Lieutenant Epstien, U. S. A., taking possession in the name of the United States Government. The flagstaff, from which the British ensign had floated for 13 years, was cut down, a portion divided among the men, and a long piece brought around to the dock yard as a souvenir. The evacuation was conducted in a most orderly manner."

The Walla Walla *Statesman* says: "Mr. Ed. Ryan, just down from Colville, furnishes us an account of the death of a man named Jacobs, a pioneer in the settlement of Colville valley. Jacobs was married to an Indian woman, by whom he had several children, and the Catholic Father had been to the house for the purpose of baptising those children. Jacobs had been drinking, and feeling cross, turned to and abused the Father in an outrageous manner. Having finished his tirade of abuse, Jacobs jumped into his wagon, which had been standing in front of the door, and whipped up his horses. The sudden start upset him from his seat, and in falling to the ground he broke his neck. The superstitious in the Valley regard his sudden death as a punishment for his abuse of the Father. The more practical minded will only see in it *finale* of a drunken spree."

Here is a poetic "personal," cut from a Western newspaper:

Wanted—A brave-hearted man, who has buffeted the storms of life and did not tremble for the issue when the troubles came; must be refined and respectable; middle-aged and discreet.

Wilt thou leave me in my anguish
Groping on through life alone?
Shall I, weak and trembling, languish,
With no arm around me thrown?

Address "Widow."

There is talk of establishing a new woolen mill at some point in Linn county. The mill at Brownsville has not been running for a long time, the machinery having been removed at some former financial troubles of the company. There are now propositions coming from Brownsville, Lebanon and Albany, to revive the enterprise at one or another of these points.

Why is the bone of the arm called the funny-bone? Because it is the humorous bone.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOVEMBER 30.

EASTERN STATES.

Critical Condition of Mr. Greeley.

NEW YORK, Nov. 29.—Mr. Greeley's death is expected momentarily, both by his relatives and physicians. Yesterday false reports were current in many quarters that his disease had terminated fatally, and many persons besieged the *Tribune* office to ascertain the true state of affairs. Mr. Greeley is at Tarrytown, away from the public, and many of his friends. Yesterday evening, at a medical consultation, it was said it was doubtful if he could live more than a few days. Dr. L. A. Hammond, one of the physicians, said; "I doubt if he will live forty-eight hours longer. I should not be surprised to hear of his death to-night. While at his bedside," he added, "Dr. Wood, an old friend of Mr. Greeley's came up. Wishing to test Mr. Greeley, I said 'Mr. Greeley, do you know Mr. Wood?' Mr. Greeley stared vacantly and answered that he had never met him before in his life. He said further: 'I never heard the name Wood before.'" The doctor described Greeley as talking incoherently all the time, being quite obstinate, and says he does not know his own daughter. Between 8 and 10 o'clock last evening his condition was less favorable. Physicians did not anticipate any important change within twelve hours.

Mr. Greeley's Condition Thursday.

NEW YORK, Nov. 28.—The *Tribune* to-morrow will publish the following: Horace Greeley slept eight hours and a half on Wednesday night, which gave him a renewal of strength. During Thursday he was more comfortable than on Wednesday. Though very weak and at times unconscious, he receives without difficulty a sufficient amount of nourishment. At 7 o'clock last evening he took beef tea, and soon afterward went to sleep. Upon the whole, however, his condition is still such as to excite the most serious apprehensions.

Death of Horace Greeley.

CHICAGO, Nov. 29—11:30 A. M.—A private dispatch from New York, says Mr. Greeley is dead.

Observance of Thanksgiving.

NEW YORK, Nov. 28.—Thanksgiving was generally observed and business suspended. The churches were well attended and the theaters crowded in the evening. The poor of the city were generously remembered, dinners being provided for them by the charitable institutions. The newsboys and boot blacks were given a thanksgiving dinner. Dispatches from the principal cities in the Eastern and Southern States represent the day as having been generally observed—more so in some Southern cities than at any time since the close of the war.

CHICAGO, Nov. 28.—The weather turned extremely cold last night, and to day is the coldest of the winter. There are accounts from various points along the Lakes of marine disasters, with some cases of loss of life.

Thanksgiving Day is observed very generally by suspension of business and services in all the churches.

European Affairs Critical.

NEW YORK, Nov. 23.—Specials from Washington say that information has been received there that, owing to the disturbed state of France, the German Government has ordered an increase of rates for emigrants from German cities, as a measure of self-protection. The German Minister at Washington is about to acquaint President Grant of the occasion of the German prohibition. The German Minister yesterday said he regarded it as possible that there would be war between Germany and France; that he had official advices that his Government apprehended trouble.

Fire.

NEW YORK, Nov. 28.—At a late hour last night, the Broom Works on 2d Avenue, with adjoining buildings, were damaged by fire. Loss, $25,000.

About 2:30 o'clock this morning a fire broke out in a building in the rear of No. 716 Broadway, the front of which is occupied as a shoe store. The fire spread rapidly to the adjoining buildings in the rear of Nos. 714, 710, 718, 720 and 722 Front street. Two of these were known as Lisard's Theater, last occupied by Kelley & Leon's Minstrels, and A. Ryan's Music Hall. The light material of these houses fed the fire, and it spread rapidly through them to the extensions of Nos. 714 and 716 The main building, an old style double mansion, with a heavy colonnade entrance, burned fiercely and threatened destruction to the edifice. The occupants of the mansion appear to have fled on the first alarm. Through this building the firemen were fortunately enabled to bear on the fire, but it was soon apparent that their efforts must be confined to saving the front buildings. Behind these the fire roared like a hundred blast furnaces, and sent up volumes of smoke and myriads of blazing fragments and sparks, which were carried over Lafayette Place and Fourth Avenue. The firemen also exerted themselves to save a row of buildings occupied by the Columbia law school.

It appears that the fire was discovered by the firemen who were returning from the 2d avenue fire, and the alarm was sounded. The doors of the infamous Arion Concert Saloon were broken open and five persons rescued, including a sick lady, all of whom were paralyzed with fear, and were taken to a hotel. Before water could be brought to bear the entire destruction of Lin Edwards theater was foreshadowed. Among the occupants of the building on Broadway were Col. Alston Brown's dramatic agency, a boot-maker and a furniture dealer. In less than an hour after the first alarm the theater was in ruins and the whole adjoining buildings nearly totally destroyed. About that time the flames began to subside. The total loss will exceed $100,000. The theater was occupied by Kelly & Leon's minstrel troupe, who had begun their season on Monday last. The Arion was closed by the police during their raid, but on Tuesday the girls again made their appearance. Probably the disaster last night was owing to their carelessness. Col. Brown's loss will be about $10,000. Other losses light, excepting the theater managers.

The Erie Suits.

NEW YORK, Nov. 28.—It is stated that Jay Gould and H. N. Smith have satisfactorily arranged their differences in Northwestern stocks. The last settlement was made at 115. Others were at a great deal higher figure. It is said that the highest that Gould paid for his stock was 85. Every contract has been met and there is not a single failure.

Florence's Hotel at McComb's Dale, was yesterday seized by George Ridgway, acting for the Sheriff, to satisfy a levy of $50,000, for which amount W. S. Florence was bondsman for Thomas C. Fields, now a fugitive.

George Macdonald Sick.

NEW YORK, Nov. 28.—George Macdonald, the poet, is severely ill at the residence of a friend at Scotch Plains, New Jersey.

WASHINGTON CITY.

WASHINGTON, Nov. 28.—It is certain that a quorum will be present in each House of Congress on Monday, when the President will communicate his message.

The Secretary of the Navy has finished his report.

CANADA.

TORONTO, Nov. 28.—The bark *Sarah Ann Nash* was driven ashore in a gale last night at Weller's Bay. She is a total loss. The bark was owned by Dodge & Co., and bound from Oswego to Toronto. The crew were saved. The vessel was insured.

WEST INDIES.

Havana News.

HAVANA, Nov. 28.—The steamer *Pinero* was lost off this harbor, together with her cargo of cattle.

Haytien advices are to the 10th. A proportion is made for a loan to the Government of $800,000 at 8 per cent. per annum. The Government is apprehensive of trouble arising out of the indemnity demanded by France.

Latest advices from San Domingo report the troops of Baez killed Gen. John Lynch, while the latter was on Haytien territory.

MEXICO.

Indian Troubles.

CITY OF MEXICO, Nov. 15.—Serious troubles are reported at Tehuantepec where it is alleged the Indians were unwilling to obey Lozado, were attacked by the troops, and that Gen. Placido Vega was killed. Lozado is reported dead but the news needs confirmation.

President Lerdo will be inaugurated on the 1st of December.

Astonishment is manifested in political circles at the persistency of the new President in retaining in high office the appointees of the late President Juarez. Cabinet officers are said to have resigned, but a new cabinet will not be appointed until after the inauguration.

A committee of Congress propose to erect a monument to the memory of Juarez and give his widow and children a pension.

BY ATLANTIC CABLE.

From Paris.

PARIS, Nov. 28.—Midnight—An immense excited crowd awaiting the arrival of the train this evening at the Paris station of the Versailles Railroad for the first news of the Assembly's decision. The bourse has been agitated all day. The Boulevards are filled with excited throngs; an outbreak is feared at Lyons, Marseilles, Nismes, and Montpelier, if the Government is defeated and Thiers resigns.

From Versailles.

VERSAILLES, Nov. 28.—The Assembly this afternoon debated on the report of the committee on address. It was opened by M. Greary who read the resolution which embodies the recommendations of the majority report. M. Dufaure, Minister of Justice, made a speech defending the President and counselling conciliation. The Ministers he said were already responsible, and had never sheltered themselves behind the President. He objected to the proposal to deprive the President of the right to speak in the Assembly. He compared the position of the President of the United States who had the right to veto laws and whose powers were so largely increased during the vacations of Congress, with that of President Thiers. The Minister added that while he deprecated the exclusion of the President from participating in debates in the Assembly, the Government was willing to consent to it if compensatory privileges were granted. He concluded submitting the resolution providing for the appointment of a committee of thirty whose duty it shall be to draw up a law regulating the public powers and prescribing the conditions of Ministerial responsibilities.

M. Batbie moved that the resolution proposed by the Minister of Justice, be referred without debate to the Committee on Address, and that the committee be instructed to report within an hour. This motion was adopted and the sitting of the Assembly was suspended to allow the committee to prepare a report, on which they are now at work.

LATER.—The Committee on Address have been in session three and a half hours, and the sitting of the Assembly was not resumed until 6:30 P. M. M. Batbie announced that the committee had rejected Minister Dufaure's resolution and determined to stand by its own resolution, the immediate consideration of which was demanded. The decision of the committee was coupled with a demand for immediate debate. It caused a profound sensation in the Chamber. Minister Dufaure, in reply, declared that he should insist on the consideration of the resolution he had submitted, and asked for an adjournment of the sitting till to-morrow. Amid much confusion and uproar several votes were taken, wherein it appeared that the Right and Right Centre are united and will be organized, and an adjournment was ultimately conceded and the sitting was brought to a close.

During the proceedings the excitement in the Chamber and outside was intense. The hall was completely filled while large crowds gathered in the lobby corridors and streets.

The situation is extremely serious and it is impossible to predict what turn events may take to-morrow.

From London.

LONDON, Nov. 29.—The recent storms have flooded the lands of many counties causing great damage to agriculture.

The creditors of Bowles Bros., are in favor of placing the estate in bankruptcy.

Rev. Mr. Spurgeon is seriously ill.

Doublin policemen are showing signs of insubordination.

A slight shock of earthquake was felt at Derby to-day

LONDON, Nov. 28.—It was reported in Paris last night, that a compromise would be made between the President and Assembly, based on the immediate Ministerial responsibility of Thiers, and an agreement on the part of the conservative Deputies to consider the question of Constitutional Reform afterwards.

LATER.—The rumors of compromise excite the Left.

A special from Paris to the *Times*, says that ... will appeal to the people. That the city is excited is evident from the irritation felt and expressed in that part of the city principally inhabited by the workingmen over the report of the committee on the address. The writer of the report, M. Batbie, is already very unpopular in these parts of the city.

A special to the *Daily Telegraph* states that General Manteuffel, commander of the German army of occupation in France has received orders to concentrate his force in case of certain contingencies.

LONDON, Nov. 28—6 P. M.—The situation at Versailles is unchanged. The opinion gains ground that a compromise will be effected. The provinces overwhelm Thiers with words of cheer and promises of support.

LONDON, Nov. 28.—5 P. M.—The specie in the bank of England has increased 1,743,000 pounds. The rate of discount by the Bank of England is reduced one per cent. making it now six per cent.

GIBRALTER, Nov. 28.—The U. S. steamer *Hartford* from New York en route to join the Asiatic squadron arrived this morning; all well.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 28.—W. F. Babcock, Albert Gansel and Louis Sloss have been appointed a committee of inquiry into the diamond frauds, with full power to use all means necessary to bring the guilty parties to justice.

In a sermon to-day Rev. H. Stebbins alluded to the great swindle, denounced the authors, and exalted Clarence King for his scientific knowledge and high moral courage.

Business has been generally suspended to-day. There were religious services in most of the churches, and a genuine holiday in most public institutions.

INTERIOR CALIFORNIA DISPATCHES.

YREKA, Nov. 29.—Rain continued to fall very lightly here during yesterday and to-day. Very little snow in the mountains as yet. The telegraphic interruption in the Sacramento valley have been caused mainly by the action of cold weather upon new wires which were put up too tightly and parted in many places.

NEVADA CITY, Nov. 28.—This morning Earl Caswell, about 14 years of age, son of T. H. Caswell, used Danforth's fluid in kindling the fire. The can exploded, enveloping him in flame, burning him so terribly that he cannot survive. Mr. Caswell's hands were badly burned in extinguishing the fire.

OREGON.

Harrisburg will hold high carnival in the way of a grand supper and ball on Christmas.

Four families settled in Wallowa Valley, Union county, last week. This place is fast filling up.

The Good Templars of La Grande are making preparations to build a temperance billiard room.

There are four school districts in Union county named respectively Dixie, Shanghai, Frosty and Hardscrabble.

The proprietors of the Harrisburg Mills are now busily engaged in grinding the new crop—turning out about five hundred barrels of extra flour per week.

The coach lines from Baker City to Gem City, Hog'em, etc., are now all consolidated in one line, and purchased by Rockfellow and Marshall. The line is doing a good business.

Through the noble exertions of Miss Mary Woodworth, of Howell Prairie, who is now teaching a day school in Silverton, a Sunday School is being organized in that flourishing country village, 14 miles east of Salem.

A fellow in Salem challenges all the falsetto singers in Oregon and Washington Territory to a trial of skill for the championship of the Northwest coast. He proposes to claim that he is champion unless some one "out squeals" him in sixty days.

The following record will give a good idea of the climate of Ochoco Valley: October 22 to 26, clear and pleasant; 27, light snow; 28, clear; 29, a regular Oregon mist; 30 and 31, clear and pleasant; November 1 and 2, clear and pleasant; 3, cloudy; 4, clear and very pleasant; 5, cloudy, with snow and rain; 6, clear and pleasant; 7, do., but very windy during the night; 8, snow and cold; 9, cloudy but pleasant—snow all disappeared; 10, clear and pleasant; 11, snow and rain; 12, more snow; 13, snow and rain; 14, snow fell 2 or 3 inches in depth; 15, 16 and 17, snow remaining clear, very cold at night, but pleasant through the day, with no wind.

A man named James Hislop, employed in herding a band of sheep on Wild Horse Creek, Umatilla county, had his feet badly frozen a few days ago. On Monday of last week he was out with his herd of sheep during the whole of the ... snow storm, and, becoming bewildered and chilled by the cold, he wandered around and lost his reckoning. In this condition he remained from Monday morning until Wednesday, a period of 58 hours—during the whole of which time he was exposed to the severe cold, and was without blankets or any protection, save the clothes on his back. When found by his employers—the Adams Bros.—he was almost gone, but, by careful nursing he was brought to, and subsequently removed to Walla Walla. Both his feet are badly frozen, and it is feared that the left one will have to be amputated.

The following is from the *Statesman* of the 28th: "Gen. Joel Palmer, Indian Agent at the Siletz Reservation, passed through Salem yesterday en route for Dayton, Yamhill county. He had come out to Corvallis to attend the session of the Circuit Court, bringing with him a number of Indians, witnesses in the case of Boyle, charged with the murder of Too-te-nai Jack last summer. The General informs us that the Grand Jury of Benton county ignored the bill, and Boyle was discharged; so, as far as the prosecution of the case is concerned, there is an end of it. But Gen. Palmer expresses grave fears that the trouble connected with it will not end so readily. The Indians, of course, think there is no justice done unless they have the blood of the murderer, or some equivalent. They have been clamorous for revenge, and it was with much difficulty they were restrained from proceeding on their own account, last summer, against Boyle. They were finally induced to wait patiently for the trial of Boyle by the white men. Now that the Grand Jury has dismissed the case without a trial, and by means of which the Indians are ignorant, the latter are *hias sullex*, and it is feared there may be further trouble. Gen. Palmer will return from Dayton to-day and hasten back to the Reservation. He expects to find the Indians in a ferment."

Dr. Aborn at San Francisco.

DR. ABORN'S LABORATORY, CONSULTING AND Operating Apartments are now located at 213 Geary street, San Francisco, where he can be consulted personally or by letter. Medicines are carefully packed and shipped by express to all parts of the Pacific Coast and adjacent Territories. All letters or remittances, either by mail or express, will be received, if addressed DR. ABORN, 213 Geary street, San Francisco, Cal. o17dawtf

SATURDAY MORNING NOV 30 1872

Horace Greeley

Just as we are about going to press the telegraph brings the sad intelligence that Horace Greeley is no more He died last night at Tarrytown N Y after a most painful and somewhat protracted illness, occasioned by the exhaustion and nervous prostration consequent upon the death of his wife and the labor and excitement of the political campaign in which he was so prominent a personage

Mr Greeley was born at Amherst New Hampshire February 11 1811 He was the son of a farmer but his eagerness to acquire knowledge caused him to determine early to learn the printing business, thinking that occupation would afford him better opportunities for reading than any other Before he was ten years old he had read all the readable books he could borrow in his father's neighborhood He worked with his father at farming till he was fifteen years old when he became an apprentice to the art of printing in the office of the *Northern Spectator* at East Poultney, Vermont His apprenticeship was terminated in 1830 by the breaking up of the establishment in which he was engaged After working for short periods in different printing offices he went to New York in 1831, to seek employment, where he worked as a journeyman printer for a little more than two years, at the end of that time commencing business for himself He now formed a copartnership with Francis Story, and they two published the *Morning Post*, the first penny daily ever issued Mr Story died soon after, and the *Post* proved a failure Greeley in connection with Jonas Winchester and E Sibbett, commenced the publication of the *New Yorker*, a Whig paper, and he also wrote for the columns of other Whig journals of the time In 1840 he issued the *Log Cabin*, in the interest of the election of Gen Harrison to the Presidency,

In 1841 after serving a term in Congress, he merged the *New Yorker* and *Log Cabin* in the *Daily Tribune*, which was soon followed by the weekly In connection with the *Tribune* he won all the fame that journalism can promise to any man

Perhaps no man of his generation had more to do with shaping the destinies of the nation than Horace Greeley The whole country will forget the asperities of the political strife in the common sorrow that comes with the loss of one of America's most distinguished citizens

The End of the Democracy

From an inspection of the Eastern journals issued since the consultation held at Columbus by the late Democratic leaders, which have just come to hand, we are confirmed in the belief that the reconstruction of the Democratic party will not be undertaken The leaders appear more inclined to content themselves with administering on its estate than to attempt the reconstruction of its body That can be accomplished by very simple processes and without a miracle this can be done only through the exercise of miraculous power

The consultation at Columbus was as inharmonious as any of the councils which have made the party a by word for the last three years. Every question that was broached, whether of party tactics or political principle, was the subject of heated debate and dissension. When it was proposed to re-organize upon the principles enunciated in the Cincinnati platform, a stormy discussion followed in which the whole scheme of coalition, even for temporary purposes, on the Cincinnati plan was denounced as the surrender of Democratic ground, and the proposition to attempt the permanent committal of the party to such doctrines was pronounced an outrage An agreement could not be obtained to the proposition to go forward on the new ground of the late Presidential campaign, nor go back to the ground the party occupied a few years ago There could not be an agreement effected even upon the name under which the party shall pass henceforth Not only do the managers of the proposed reorganization fail to agree among themselves as to what colors they shall sail under, but they quarrel over the question what ship they shall sail in

It requires no prophetic foresight to see the end from this beginning The Democratic organization has gone to pieces, and every attempt to reconstruct it shows how thoroughly rotten it was before its time of dissolution came A few, who have conscientiously believed in the party throughout the evil days that it fell upon, no doubt listen in sorrow to the doleful noise of its passing away, much as old Solomon Gills heard the falling to pieces of that wooden midshipman that hung as a sign before the door of his shop long after it ceased to signify anything except the dead past But the vast majority of the intelligent portion of its own members lost all confidence in the party long ago, and are not sorry to see it pass off the stage of action The New York *Herald* for example, simply mentions the failure at Columbus to devise any plan of organization, with the quiet remark that the Democracy is dead and cannot be galvanized into life again In about the same tone the matter is spoken of by other Democratic journals A few still express the hope of reviving the party, upon some platform of progressive ideas, and some are silent but it is plain to be seen that the controlling and managing members of the party have abandoned all idea of its resuscitation in any form

The Inadequacy of the Common Schools

Not least among the evils incident to sparseness of population, from which Oregon and the Territories have suffered, is the difficulty of devising an efficient common school system which shall accommodate the inhabitants of every section The successful operation of the common school, under the plan at present in use demands a population more dense than that of the larger part of this State and the adjoining Territories Even in our most thickly settled districts—the towns excepted of course—the common school is by no means what could be desired and among the scattering settlements of the grazing districts it affords practically no facilities at all for obtaining even a rudimentary education

The same difficulty is met with in British Columbia and there is considerable interest manifested there in the question how to overcome it A plan is proposed that looks to the establishment of central boarding schools at such points as will accommodate large districts of country This scheme is acknowledged to be open to serious objections, both on account of its greater expensiveness than the ordinary method, and—which is of still more importance—because it contemplates taking the pupils away from the influences and restraints of home It is claimed for the plan, however, that it will be far less expensive than the private boarding school and liable to no objections to which that institution is not equally liable It is not offered as a better system than that of the ordinary district school where that is applicable, but as the next best thing where that is not practicable

All this appears to us to be crude But it indicates that inquiry is busy with a question that demands serious consideration The physical geography of the country west of the Rocky Mountains extending north and south as far as civilization has yet attempted to establish itself is such as will ultimately compel either the abandonment of the idea of popular education or the adoption of some system radically different from that upon which our common schools are maintained The present plan or any modification of it is and for obvious reasons must continue to be so far as a considerable portion of our population is concerned utterly inadequate and practically worthless In some districts, embracing so great an extent of territory as to render it next to impossible for children living in the remoter parts to reach the school house located in the center it is still found that there are not children enough within the legal limits of school age to make a respectable district school if all attended With this want of population there is necessarily a corresponding want of the pecuniary means to keep up the school, the burden falling with greater weight on the few who have it to bear The result is that in many localities, year after year, the same report comes up to the County Superintendent "No school kept during the year,' while the youth of the unfortunate region grow up without education or aspiration

We are glad to see see this matter agitated among our neighbors of British Columbia and shall watch the development of their ideas upon the subject with great interest feeling that the question is one that concerns our State and the American Territories similarly situated even more deeply than it does the Colony

LITERARY CHAT

Sweeter and sweeter becomes the melody of each succeeding song as, it drops from the lips of that old silver haired minstrel who is now just waiting

> 'To cross over life's harbor bar
> To the fathomless sea outside

As John Greenleaf Whittier, weary with his earthly wanderings leans him o er the half closed gate of death, and lingeringly casts a backward glance over the path he has just trodden on his

> Journey toward Heaven and God

he sings for our delight a song of peace, and who may tell but that it is his farewell song?

His last production 'The Pennsylvania Pilgrim' has just been published by Messrs Osgood & Co, and although it may not be read with the same degree of interest that has greeted some of his former publications, yet we think certain passages excel anything he has hitherto written in the poetic melody he has infused into them Whatever opinions critics may express as regards his position as a poet, we of the common people will ever hold him dear to our hearts as the best interpreter of our holier thoughts Most of the minor poems of the book are already familiar, having been published in the *Atlantic Monthly* during the past year Of one of these a learned critic says "there is more poetry of winter in the few lines of 'The Pageant' than in the whole of 'Snow Bound'"

We wish that all our verse writers could give us such lines as close the little gem of 'Marguerite"

Marguerite is a poverty stricken French girl, who has worn out her young life in the drudgery of a serving maid under a cruel-hearted mistress She has been beloved, though silently it may be, by the mistress' son As she lies on her death bed in the scantily furnished attic, her lover creeps into her chamber, and, kneeling by her almost lifeless form, calls her by name

> She paused on the threshold of heaven love pity, surprise,
> Wistful tender lit up for an instant the cloud of her eyes
> With his heart on his lips he kissed her, but never her cheek grew red
> And the words the living long for he spake in the ears of the dead
> And the robins sang in the orchard where buds to blossoms grow
> Of the folded hands and the still face never the robins know

We like very much the opening of John G Holland's "Arthur Bonnicastle the first chapters of which have just appeared in *Scribner's Monthly* It lacks the freshness and originality of 'Wilfrid Cumbermede' to which it bears a great resemblance The unwonted precocity of the boy hero is objectionable particularly in an autobiographic story But this is nothing more than Dickens and Macdonald have done though the latter so skillfully that the disagreeable points together with their seeming egotism, are in a measure concealed Holland's description of moving

> From the old house up to the new

is remarkably well done, and a very sweet conversation (but for its afore mentioned egotism) is the first one between Mr Bradford and little Arthur With these trifling exceptions, the story is unusually attractive, and it seems to us that 'Arthur Bonnicastle more than bids fair to be a great book

George Eliot's Middlemarch is a practical illustration of the theory that there is such a thing as transferring to the pages of a book not only the features and lineaments of a character but also its very self To illustrate In Anthony Trollope Miss Austin and Jean Ingelow we see the shadows of living persons, moving they may be and closely resembling those whom they are intended to portray; yet nothing but shadows cast by the sun In George Eliot we behold the very beings with whom we sustain intimate relations throughout our every day life And yet the aim of the authoress is too high to admit of absolute perfection We are not likely to have a very striking representation of practical life without many inward feelings of disappointment The London *Spectator* remarks "There are, as we have often noted tones and undertones in it that are not to our own liking and that to a certain extent jar with the large and genial freedom of delineation that is the very essence of George Eliot's best manner yet 'Middlemarch is one of the greatest Books in the world

M Jules Michelet author of The Bird has again made his appearance in the literary world this time accompanied by his wife—Nature or the Poetry of Earth and Sea by Madame Michelet carefully revised by her husband—translated by W H D Adams—and the 'The Mountain by M Michelet also translated by Adams being the second of the series of which the Bird was the first have just been issued by Messrs Nelson & Sons

The Mountain is a continuation of the subject of Natural History introduced by The Bird and is in no respect inferior to that very remarkable book The materials for the present volume the author says are made up from his personal observations Nature, or the Poetry of Earth and Sea is a book written after the French style a fervid description of the beauties of nature as seen more from a poet's stand point than that of a scientific student It will prove a very readable book

Over thirty of the members elect of the Missouri Legislature, says the St Louis *Tribune* are ex Confederates A question of their eligibility will be raised The Constitution of Missouri provides that no person shall be eligible to a seat in either branch of the Legislature who was not been a legal voter two years The legal disabilities of these persons not having been removed two years prior to the date of their election it is claimed that they could not lawfully be chosen and therefore cannot lawfully sit

We note with sorrow the announcement in the Seattle *Dispatch* of the death of an old and esteemed friend Dr H I Lathrop which occurred at that place on the 25th instant He had been out of health, from dyspepsia for some years and left California last summer for this north coast in hopes of gaining relief But though he apperped to improve for a time in the bracing air of Seattle, his malady finally returned and carried him away

T D Thatcher editor of the Lawrence (Ks), *Journal* was elected President of the Kansas and Missouri Associated Press on the 13th instant

ON MARRAIGE

Happy relief for young men from the effects of errors and abuses in early life Manhood restored Nervous debility cured Impediments to marriage removed New method of treatment New and remarkable remedies Books and circulars sent free In sealed envelopes Address HOWARD ASSOCIATION No 2 S nith Ninth street Philadelphia Pa. n2'dawly

Resolution.

AT A REGULAR MEETING OF THE BOARD OF Delegates of the Portland Fire Department held October 6 1872 F M Arnold offered the following preamble and resolution

WHEREAS It has been the custom of the Fire Department, for the past ten years to elect the Chief Engineer two successive terms and Mr A A Williams the present incumbent, having been nominated for re-election therefore,

Be it resolved By the Board of Delegates, that reposing full confidence in the integrity and ability of Mr A A Williams the present Chief Engineer we approve the nomination, and recommend his re-election to said office

Adopted by the following vote

Yeas—Andrus Wood Hallock Ripley Thomas Marvin Moffatt Arnold Stewart—9

Nays—Holman Mills Wetzell Lyon—4

Absent—Bruen Whalley—2

On motion of W H Wetzell copies of the above preamble and resolution were directed to be furnished the daily papers for publication with the vote thereon

SURPRISE PARTY AND DRAMATIC ENTERTAINMENT.—On Thursday evening last, the members of the Portland Youth's Literary Society, their relatives and friends assembled in goodly numbers at the residence of S Blumauer, Esq., corner of Fourth and Morrison, all muffled up, and with umbrellas, armed ready for the march, bent on surprising some one,—whom, none knew. Their destination, it transpired presently was right there, for in the twinkling of an eye the doors which divided the spacious parlors were drawn aside, and an abundance of drapery screens and like paraphernalia revealed itself to the surprised and delighted company. In short the smaller parlor had been, as if by magic metamorphosed into a miniature theatrical stage. A few well timed remarks by the untiring and able President, Mr Ben. Selling, upon the Society's prosperity and the celebration of this their first anniversary, opened the programme, which was followed by an appropriate and interesting prologue by the manager, Mr. Samuel Beck. Next came the affair of the evening—the beautiful fairy drama entitled "Beauty and the Beast," cast as follows Banquerupt, Ben Selling, Selim Conrad and Casper, (his three sons) Simon Selling, Samuel Simon and Louis Cornart Prince Amorous, the Beast, Louis E Herman, Helena, Marietta, and Beauty, (his three daughters,) Miss Lena Ach, Miss Pauline Beck, and Miss Eugenia Rosenheim, Golden Wings, Miss Rosa Harris. Our space will not permit us to particularize, but if applause and enthusiasm can be accepted evidence, the play was a success. Indeed, the performance was good, beyond expectation. The leading characters as essayed by Mr Louis E Herman and Miss Jennie Rosenheim, were above the average amateur, though Mr Herman, by the way, was rather too handsome for a Beast; Beauty was evidently well pleased with her man Herman, and her performance displayed excellent elocutionary powers combined with fine dramatic effect. It is really a pity that Ben Selling was born so young—he plays old man so well We will say briefly that the Misses Harris, Ach and Beck all merited the applause bestowed upon them, and as for Simon Selling, Samuel Simon and Louis Cornart, they filled the bill, their rendition of the parts assigned showing careful study. Immediately upon the fall of the curtain, the rooms were cleared for dancing, in which both young and old indulged to their heart's content. Nor had the young men been unmindful of the wants of the inner man. The supper supplied by Messrs. Alisky & Hegele, was duly appreciated, and again and again were the Club applauded for their enterprise and liberality. Mr and Mrs. Blumauer, who were made guests in their own house, used every endeavor to please their numerous friends and to merit the thanks of the Youth's Club. It was three o'clock A. M., before the mansion was restored again to its previous quiet state.

TEAM DROWNED.—Two valuable horses were lost at the Stark street ferry last Thursday afternoon, by walking off the ferry when the boat was about one-third of the way across the river. The circumstances attending the drowning of the team are as follows: The horses were owned by a farmer named Lovelace, who resides about 12 miles north-east of the city, in Clackamas county. He came to the city early in the forenoon of the day, and having transacted his business, started home He drove down the foot of Stark street on the ferry, passing to the right hand side of the cabin Only one other team was on the boat at the time, and that was on the left hand side, directly opposite Lovelace's team The horses and wagon were driven to the center of the boat and stopped. When the ferry had left the eastern shore and passed about one third of the distance towards the opposite side the accident occurred There was a lady on the other side of the boat with whom Lovelace was desirous of speaking He left the lines wrapped loosely around the forward part of the wagon bed, and crossed to where the lady was standing The cabin intervened and for the time being, the team was out of sight of the driver. A few moments after being left, the horses started slowly towards the forward or eastern end of the boat Mr Foster, the gentleman who is employed on the ferry, was the first to perceive the team. When first seen, both animals were on the edge of the "apron" Mr. Foster did not shout for fear he might frighten the team and cause them to spring outward, but he leaped forward with that desperate energy which the perilous situation of affairs seemed to require Before he could grasp the lines, check the team, and possibly avert the disaster, one of the horses stepped off the edge. The other animal wisely drew back, but the horse which was struggling desperately in the water drew in his companion. The forward part of the wagon also followed. The middle of the "coupling pole" caught on the edge of the boat, and with the assistance of Mr Foster, the hind wheels were prevented from dragging over board. The alarm was given, a crowd on board rushed to the rescue of the now drowning team and the engineer reversed his engines. An attempt was made to cut the struggling animals loose from the wagon, but the effort was unsuccessful. A rope was next tied to the hind wheels, and attached to the other team, on board, and after some difficulty the wagon and team were drawn on board One of the horses was stone dead; the other manifested faint signs of life, but expired in a few minutes The harness was removed and the carcasses rolled off into the river. The horses were valuable, and their loss falls quite heavily on Mr Lovelace.

CHIEF ENGINEERS AND ASSISTANTS.—The first Chief Engineer and Assistants of the Portland Fire Department, were elected in the year 1860, a few months subsequent to the permanent organization of the Board of Delegates. The first election was held on the first Monday in December of that year. At that election Joseph Webber was elected Chief Engineer, M. M. Lucas First Assistant, and J J Messenger Second Assistant The election the following winter—1861—resulted in the re-election of Joseph Webber A C Ripley was chosen First Assistant, and John Thompson Second Assistant. The records fail to show who was elected in the winter of 1863 In 1864, Joseph Buchtel was elected Chief Engineer, and W. H. Wood and T. J. Johnson as Assistants Thomas G. Young was elected Chief Engineer in 1865, with W. H. Wood (re elected) as First, and W T. Patterson as Second Assistant. In the year 1866, Mr T G Young was re-elected Chief, and also W. H Wood, First Assistant. Wm. H. Wetzel was elected Second Assistant. W. H. Weed was elected to the office of Chief Engineer in 1867 Wm. O Bruen was elected First, and F. M. Arnold Second Assistant, for the same year At the election in 1868 W H Weed was re elected Chief, Jacob Kunzig, First Assistant, and T J Johnson, Second In 1869 Robert Holman was elected Chief Engineer C W Hayward, First Assistant, and B Mayer Second R Holman was re elected in 1870, with Jacob Kunzig as First, and G. W. Hansel as Second Assistant. Last winter—1871—A A. Williams (present incumbent of the office) was elected Chief Engineer A Wendt First, and C D. Deitz Second Assistant Next Monday, 2d, prox the annual election of a Chief and two Assistants will take place The candidates for Chief Engineer are A Williams (present Chief) Wm O Bruen and A Wendt The candidates for the offices of First and Second Assistants are A J Gray, J P Wilcox, J F. Gallagher and J B Reynolds

A "SALMONIZED" WATCH.—To look on a galvanized watch is a common occurrence; but to see a genuine "salmonized" time piece is an event not often transpiring in one's life Recently we were shown a small silver watch which was found in a salmon's stomach. The history of this watch is rather remarkable. Some years ago a well known old sea captain, who was running on the California coast, as master of the little steamer Ohio de ... but who now resides in this city, was presented with a fine, large, fat salmon He took the fish just as he had received it to his wife. His spouse, on opening the salmon, found a neat little silver watch, of Geneva manufacture, in the stomach of the fish A handsome chain was attached to the time piece The watch was taken to a jeweler, cleaned and put in running condition. This occurred several years ago, since which time the old sea Captain has carried the watch on his person He pronounces it a very accurate time piece A short time ago he sent the watch down to his son in San Francisco, as a present Altogether considered, it is a singular thing Probably it is the only instance on record in piscatorial annals, where a fish was induced to filch time by swallowing a watch

DEDICATED.—A new engine house of Vancouver, for Co No 1, has just been completed The building is 100x50 feet, very neatly and substantially constructed. The house will be formally dedicated this evening with appropriate exercises. The occasion will conclude with a social dance

ADVENT SUNDAY.—The morning service in the Unitarian Church will be appropriate to the day The evening service is omitted, being the first Sunday of the month, and afternoon service (communion) at 3 30 o'clock

COLLISION OF VESSELS.—A serious collision occurred last Wednesday about noon, on the Columbia river opposite Oak Point, between the ship *Channel Light* and steamer *Emma Hayward* The ship was bound up, in tow of the *Merrimac*, and the steamer was on her way down to the ship *Zouave*, having on board 200 tons of wheat for that vessel A dense cloud of fog hung over the river at the time of the collision So impenetrable to the vision was the fog, that objects could be discerned with distinctness only a few rods from the vessels When some distance apart the *Emma Hayward* gave the usual signal, which was promptly answered by the tug The *Merrimac* immediately after responding to the signal, slackened her tow to the rate of about two knots per hour By some mutual miscalculation as to the exact distance and direction of the approaching vessels, the pilots, instead of "sheering" off each way, and thus avoid colliding, took the same course The steamer was bearing down rapidly while the ship and tug were nearly stationary The Captain of the *Hayward* was the first to perceive the approach of the ship, by the rigging, which loomed up dimly through the cloud He saw that a collision was imminent unless some very skillful manœuvering was done, and he resolved to try the dangerous experiment—for so it proved—of running past the bow of the ship However, the steamer was not quick enough to pass, in consequence of the proximity of the ship when first discovered, and the rate at which she was traveling The jib boom of the *Channel Light* struck the side of the cabin quarteringly The boom penetrated just aft the pilot house and stack, tore out seven state rooms and the whole pantry and otherwise injured the steamer. The ship did not escape without considerable damage The jib boom was broken short off, the cat heads were smashed in, and one of the anchors carried away. The cargo of the steamer was not in the least damaged. It is the opinion of both pilots that if the tow had collided with the steamer nearer midship, and less quarterly, the latter would have sunk instantly by the force of the shock. The pilot on the *Emma Hayward* narrowly escaped, as the bow sprit struck just behind the wheel house Luckily no one was hurt at all. The steamer proceeded down to the *Zouave*, discharged her cargo, and is now lying at the bone yard awaiting repairs Her damages are about $2,000 Those of the *Channel Light* are probably $500

SAILED.—The following passengers took their departure on the San Francisco steamer last evening which sailed from this port: Hon George E Cole, Miss Ella Cole, D J Smith, N Hartley and wife, Mrs. Cecelia, Robert Porter, C White. P Wickerman, Professor Auffrey, Dr Humphreys, D Louderman, F T Reed, Mr Hoyt, W G Findlay, F H Cook, Daniel Conan, W H Fink, John Proctor Mrs Rebecca Poland, F M Carry, R A Redman, Mrs George E Cole, John A Fuller, Mrs M E Dodge and two children, Mrs J Snow and infant, J Dick, Edith O'Gorman, Miss Myers, J C Fox, J Wade, J H Bill, Captain Johnson, W F Dixon, J C Peace J E Cresson, J J Jourdan, John Flanigan, Mrs E R Hogue, Fred K Hard, and 22 in steerage.

CHANNEL LIGHT.—The ship *Channel Light* arrived at this port Thursday evening from Astoria, in tow of the tug *Merrimac* This ship came in ballast here from Hongkong, having sailed from that port on the 12th of September. She experienced a moderately fair passage to the mouth of the river. Her ballast consists of stone which she will be discharging soon. The *Channel Light* is under charter to carry a cargo of wheat to the United Kingdom Grain will be received on board as soon as the ballast is disposed of She is now lying at McCracken's wharf awaiting berth.

DISCHARGING IRON.—The ship *Victoria Nyanza* is now discharging railroad iron at Astoria This ship is drawing over 18 feet of water, and it is not deemed safe to attempt to reach this city at the present stage of water Iron will be taken out until the vessel is sufficiently lightened to pass in safety the most shallow places, when the *Nyanza* will proceed to Portland She has a cargo of iron from Middlesborough for the Oregon and California Railroad That portion of the iron discharged at Astoria will be brought to this city by river boats.

CONSOLIDATION.—The two debating societies of this city, the Washington and Concordia, have consolidated, and will hereafter be known by the name of the Concordia Debating Society. A joint meeting was held at the County Court room last evening and a permanent organization effected by the election of officers. Regular meetings of the Society will be held on Friday evenings.

FROM THE NORTH.—The steamer *Geo S Wright*, from Sitka and way ports, arrived here Thursday evening. She brought a small quantity of freight and no passengers. She made the round trip in twenty-three days. Rough weather was encountered No vessels were reported off the bar. The *Wright* is announced to sail next Monday.

AT PORT.—The brig *Orient* is now at Flanders' wharf discharging her assorted cargo. She will be ready to receive freight by next Tuesday morning It is not known when the *Orient* will lead, or of what her return cargo will consist The bark *Naworth* is receiving wheat at the wharf She will soon proceed down the river.

MORE WHEAT.—The steamer *E N Cooke* took down last evening 110 tons of grain. This steamer temporarily takes the place of the *Emma Hayward* which is disabled by the collision. About half the grain will be divided between the bark *Gresham* and *Zouave*, both of which vessels have not yet completed cargoes for Great Britain

NEW OIL HOUSE.—A large quantity of brick, lumber and building material will be shipped in a few days to Astoria, and from thence to Cape Disappointment. The material will be used in constructing a new house in connection with the lighthouse at that point, as recommended some months ago by Major Robert

SHIPMENT OF OYSTERS.—A gentleman just from Shoalwater Bay informs us that during the past two months 50,000 baskets of these delicious bivalves, have been shipped to San Francisco Oyster season for the present has closed there, and will not be resumed until about the first of February.

STEAM UP.—Steam was raised in the new portable boiler, at the Willamet Iron Works, on Thursday, for the purpose of trying the engine Everything "worked like a charm" This engine and boiler will be shipped to-day to Cloverdale, Lane county, to drive the machinery of a small saw mill.

BURNED.—The engineer of the *George S Wright* had one of his hands badly burned at Sitka on the last trip of the steamer, by handling some coal oil. He was able to perform his duties, although still compelled to carry his hand in a sling

DETAINED.—The steamer *Oneonta* was detained an hour or more yesterday morning, while on her way to the Cascades, in consequence of some light breakage to her machinery The damage was repaired and the steamer proceeded on her way

PERSONAL

Frank Hodgkins, late "ye local" of the *Statesman*, has returned to stay in the city

Wm B Carter, editor and proprietor of the Corvallis *Gazette* is in the city, and favored us with a call

Mr and Mrs Auffrey (Miss Edith O'Gorman) took their departure on the *Oriflamme* last evening for San Francisco

Wm R Steele, Esq, has succeeded Mr A L Walt as passenger agent of the Chicago, Rock Island and Pacific Railroad Co, at San Francisco

CRIMINAL NOTES.

The case of Otto Trouer, charged with a similar violation of the Sunday law, was dismissed on motion of the District Attorney, by the payment of costs

A man named Twomey was tried in Justice Ryan's Court yesterday, on a charge of assault and battery He was sentenced to the county jail ten days or pay the corresponding fine

The case of P Saunders charged with keeping open a saloon on Sunday came up for trial yesterday before Justice Ryan The jury came in at of a few minutes deliberation, with a verdict of not guilty according to the evidence

AT EVERY thought the ... the Boston fire the firemen's action and the cold weather much has been said The cold weather has induced many to prepare in one way or another some provision to carry them in a comfortable manner through the winter Gentlemen and youths having in view a new suit of clothes an overcoat, or something in the way of underskirts, or other winter wear Messrs J O'Neil & Co, 85 First street, are fully prepared to supply these wanting any of the latter articles with promptness and at prices not calculated to diminish your cash account materially

PRESENTATION TO DR. O. P. S. PLUMMER

On the 28th instant Dr O P. S Plummer was made the recipient of a handsome testimonial of regard, at Yreka, the following account of which, telegraphed over the line, speaks for itself

YREKA, Cal, Nov 8 1872

To all operators Oregon District, Pacific Division, W U Tel Co.—Mr Thompson (chief operator) presented Dr Plummer with an elegant gold watch and chain this evening The chain bearing the names of every donor thereon, and addressed the Doctor as follows

"Dr Plummer—I have the honor as well as the gratification, on behalf of the operators of your District of presenting you with this watch and chain as a slight token of the regard and esteem we have for you May our intercourse in the future be as pleasant as in the past, and when you recall the names hereon engraved may you always remember we are all your friends"

To which the Doctor replied as follows

My friends I accept your gift with feelings of how illy I deserve this splendid watch and chain at the hands of those who, by the prompt, efficient and cheerful discharge of their every duty, have already done so much to make the relations between us so pleasant and agreeable, and I assure you this present shall be dearly cherished This beautiful watch shall ever serve me as a monitor of the importance of improving present time, and shall incite me to still greater diligence in the performance of my duty in the interest of the great and good corporation in whose service we are engaged—never being unmindful of the welfare of my colaborers, and this fine chain upon whose golden *links* are engraven forty four names of those whom I am proud to call my friends, is doubly dear to me, your names are so neatly and enduringly associated. So may we ever be united in love and good will, and in a firm purpose to so discharge life's every duty that we may be permitted to one day join that corps to which disappointments and partings are unknown.

Sincerely and heartily I thank you

The inscription on the *inner* case of the watch reads "To Dr. O. P. S. Plummer, Sup't W. U Tel Co, from the operators of the 3d District, Pacific Division, Nov. 1, 1872"

The following names are engraved upon the links of the chain

W B Rice,	W. M Turner,
A F Wheeler,	M Krause,
J W Thompson,	V. Oelvig,

All persons having claims against the Oregon City Manufacturing Company will present them to M A. Stratton, Secretary of the company, at Oregon City, and those indebted to the company will call and settle with Jacobs Bros, 51 Front street.

COURT PROCEEDINGS.

U S DISTRICT COURT—DEADY, J.

FRIDAY, Nov 29, 1872

Amos Hall et al vs brig *Pathfinder* decree for libellants for amount claimed

U S vs Eli Pilin, for disposing of liquor to an Indian; demurrer argued and submitted

U S vs T. Savaloff, for disposing of liquor to an Indian.

Same vs same, for introducing liquor into an Indian country.

Same vs same, for distilling without paying tax. demurrer to indictments in each case argued and submitted.

Adjourned until next Tuesday.

The Olympia *Courier* says: "The jury in the case of the Territory vs Wm. Kirkland, charged with the murder of Campbell in Chehalis county, W T, last May, returned into court, after deliberating nearly 24 hours, with a verdict of guilty of manslaughter, coupled with a recommendation that he be punished to the extent of the law. The maximum punishment provided by law is twenty years imprisonment in the penitentiary, and the lowest one year It was evidently a compromise verdict. It is surmised that Judge Greene, under the circumstances, will not take a very merciful view of the case in imposing the sentence."

DON'T READ THIS.—Be sure to get some of those fine Thanksgiving Turkeys or Geese exhibited at W Aschenheim's Washington Market and at his branch, No 146 First street one door below Taylor where you will find the most complete assortment of Game, Poultry and Fish.

The attention of newspaper starters—and they are numerous hereabouts—is directed to Cordova, Spain, a large city, which is without a newspaper

AMUSEMENTS.

The audience was very fair as to numbers at Oro Fino Theater last night and was remarkably well entertained and pleased by the efficient manner in which the company presented the great sensational play of Diavolo or Hunted Down No piece of its character has been put on the stage at Oro Fino for some time which excels it The cast is well made up and the characters are better sustained than usual, while the drama itself is quite meritorious We bespeak a liberal house this afternoon and evening, when this excellent play will be repeated Mr. Waldron's efforts to furnish only first class entertainments of a dramatic character ought to meet with an extensive patronage By all means you should go and see Diavolo. It is a play of much more than ordinary merit, and the Waldron Troupe play it well.

ST CHARLES HOTEL.—By reference to our advertising columns, it will be seen that this hotel has been re opened under the management of Mr J. B Sprenger, formerly of the Cosmopolitan and Metropolis hotels From our knowledge of Mr. S.'s well known qualities as a caterer to the wishes of the public, we feel assured that the reputation for cleanliness and comfort, which the house at present enjoys, will be fully sustained under Mr S.'s able management, assisted by Mr. E. A Leigh, who continues as Clerk.

Humbug Dissected
Quaint old Burton has favored us with an "Anatomy of Melancholy," but who shall dissect the melancholy fallacies and fibs with which knaves and fanatics endeavor to delude the sick and feeble of this generation Charlatans, through the newspaper press, recommend to the strengthless victim of disease convulsing purgatives, which, if taken, are sure to turn his debilitated system almost inside out, and sink him into the uttermost depths of helplessness and despondency! Fanatics, on the other hand, assure the prostrate patient that no medicine containing a diffusive stimulant ought to pass his lips. If he elects to be guided by the advice of impostors and lunatics, let him make his will and order his coffin; but if there is a spark of common sense in his composition, let him resort in his extremity to Hostetter's Stomach Bitters, the most potent of vegetable tonics and alteratives, the purest and most entirely wholesome of medicated stimulants. The wonderful cures of dyspepsia, biliousness, rheumatism, physical prostration and malarious fevers which this rare specific has effected during the last twenty-two years, are the most conclusive answers that can be given to the enemies of mankind who offer volcanic cathartics as tonics, and to the mistaken beings who would refuse a medicinal stimulant to a poor, broken-down invalid, who is literally dying by inches for the want of judicious stimulation Temperance, properly understood, countenances no such folly as this The laws enacted to put down the abhorrent vice of drunkenness provide for the sale of brandy, whisky and other liquors as medicines, and if these adulterated liquors of trade are accepted by temperance legislators as remedies what ought to be the general verdict of the temperance public as regards the powerless vegetable tonic based upon a stimulant absolutely pure

PLANTATION BITTERS!
S. T.--1860--X.
This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

Beautiful Woman.
HAGAN'S MAGNOLIA BALM gives to the Complexion the Freshness of Youth.
HAGAN'S MAGNOLIA BALM overcomes the flushed appearance caused by heat fatigue and excitement. It makes the lady of forty appear but twenty, and so natural and perfect that no person can detect its application By its use the roughest skin is made to rival the pure radiant texture of youthful beauty It removes redness, blotches and pimples It contains nothing that will injure the skin in the least
MAGNOLIA BALM is used by all fashionable ladies in New York London and Paris It costs only 75 cents per Bottle, and is sold by all Druggists and Perfumers

DECISION IN THE U. S. DISTRICT COURT BY JUDGE DEADY.

U[nited] States Circuit Court District of Oregon—Monday November 18, 187_.

La[wrence] I. Mizner vs George W. Vaughn; action to recover possession of real property—No. 84

Emma S. Lamb vs George W. Vaughn; same—No. 85

[Ida] S[quires] vs George W. Vaughn; same—No. 86

A settler on the public lands under the donation act (9 St. 497) had a present grant from and from the time of his settlement, unless such settlement preceded that point of time the passage of the act, in which case the grant took effect from the date thereof, and not before.

Where a settler under section 4 of said act dies intestate after complying with the act and before the issue of patent, his estate in the land terminates and the remainder at once vests in his children, by purchase as the donees of the United States, and not by descent as the heirs of such settler.

A settler under said act is seized at the date of his settlement of a conditional fee in the land so that upon and thereafter his right to the possession is not barred by lapse of time unless it appears that the party claiming the benefit of such bar, either by himself or in connection with others with whom he is in privity, has actually occupied the premises adversely to the title of such settler continuously for the period of twenty years subsequent to such seizin.

On September 26, 1870 the plaintiff Mizner commenced separate actions to recover possession of an undivided three fifths of lots 2 and 8 in block 15, lots 1 and 3 in block 5, and the south ½ of lot 1 in block 2 in the city of Portland, against 13 persons then in the actual occupation of certain parts and parcels of said lots and half lot respectively.

The occupants having answered that they were in possession only as the tenants of the defendant Vaughn, on application of said Vaughn an order was made admitting him to defend said action in place of said tenants, and that the same be consolidated.

On May 17, 1872, the defendant answered as follows:

I. Denying that the plaintiff had any legal estate in the premises or right to the possession thereof.

II. That the action was barred by the statute of limitations, because neither the plaintiff nor those under whom he claims were seized or possessed of the premises in controversy within twenty years before the commencement of this action.

III. The pendency of a suit and cross suit in equity in this court, between the defendant and the grantors of the plaintiff concerning a partition and the right and title to the same property.

On motion of plaintiff the third defence was stricken out as being irrelevant and immaterial, and because, if a defense at all, being matter in abatement of the action, it could not be joined with a plea to the merits.

Afterwards the plaintiff replied to the plea of the statute of limitations and in pursuance of the stipulation of the parties the cause was tried by the Court, without a jury, on June 12.

On the same date, the plaintiffs—Lamb and Squires—commenced separate actions against the same persons to recover the possession of an undivided one-tenth each of the same premises. In these actions, Vaughn was also admitted to defend, and the same issues were made as in the action brought by Mizner, and by stipulation of the parties the three were tried together.

On the trial it was agreed that either party might use as evidence, if otherwise competent, any pleading, exhibit or deposition in the suit and cross suit in equity—decided March 28, 1872, in this Court concerning the same property, entitled Lamb et al vs Vaughn, and Vaughn vs Lamb et al.

Practically, it is admitted that the plaintiffs have the legal title to the premises, and are entitled to recover the possession of them, unless their right to maintain these actions is barred by the statute of limitations.

The evidence establishes the following facts:

On September 22, 1848, Francis W. Pettygrove abandoned the land claim embracing the lots in controversy, and Daniel H. Lownsdale settled thereon and after the passage of the donation act of September 27, 1850, namely on March 11, 1852 he made his notification of such settlement in the proper land office, and otherwise complied with the provisions of said act, and died intestate thereon and before the issue of the patent, on May 4, 1862, leaving children, Mary E. Cooper, James P. O. and Millard O. Lownsdale and Ruth A. Semple, and children of his deceased daughter Sarah, the plaintiffs Lamb and Squires.

The patent certificate showing compliance by Daniel H. with the conditions of residence and cultivation required by the donation act issued to the deceased on October 17, 1860 and the patent on June 6, 1865.

Prior to the settlement of Daniel H. the land claim described "in the patent was occupied by F. W. Pettygrove and Benjamin Stark, who held the bare possession under the laws of the provisional government, but without any claim of right to or interest in the soil, which then belonged to the United States.

During this occupancy said Pettygrove and Stark sold and quit-claimed the lots in controversy, except lot 2 in block 15 and south ½ of lot 1 in block 2, as follows: Lots 1 and 3 in block 5 to Thomas Stephens, on March 8, 1849, lot 3 in block 5 to Albert E. Wilson, on March 8, 1849; lot 8 in block 15 to Hugh D. O'Bryant, on March 13, 1847.

A deed was offered in evidence, but rejected for want of proof from one Geer to Atwood for lot 2 in block 15, dated January 25, 1846, and a witness testifies that Geer purchased of Pettygrove, and that he purchased of Atwood and was in possession in September, 1848, and March, 1849, but there is no evidence to connect the defendant Vaughn with either the alleged purchase from Pettygrove or deed to Atwood.

Vaughn testifies that he purchased south ½ of lot 4 in block 2 in 1855 of James Anderson and that he had improved it in 1861 and occupied it since the purchase. He also states that before purchasing he conversed with Daniel H. who told him that the lot was in the Pettygrove title or tract which consisted of 15 or 16 blocks that Pettygrove had laid off into town lots during his occupation of the land and that he had given a bond to make title when he got one from the United States.

Lot 1 in block 5 is the only part of the premises to which the defendant proves a paper title back to Pettygrove, but when, if ever, he entered into actual possession of it does not appear, neither does it appear whether his immediate grantor, Thomas Stephens was in possession at the date of the deed to him or not.

The law arising upon these facts, is in the main well settled in this Court and need not be more than stated here. Daniel H. being in the occupancy of this land when the donation act passed, and having subsequently proven his compliance with the law, became the owner in fee of the premises from September 27, 1850, by virtue of the grant contained in section 4 of such donation act (9 *Stat.* 497), subject to the contingency that if he died before patent issued and intestate his estate terminated and the remainder should vest in his children in equal parts. Field vs. Squires (1 *Deady*, 381), Lamb vs. Starr, (*Id* 152).

This contingency actually happened, and on May 1, 1862, the four children of Daniel H. became the owners in fee of the premises as the direct donees of the United States and not as the heirs of their father.

This being so, the plaintiff Mizner and his grantors, Lownsdale, Cooper and Semple, at the commencement of this action had been seized of the premises within twenty or even ten years, and therefore he is not barred from maintaining it for the possession. In other words the cause of action did not arise until after the death of Daniel H. and the vesting of the remainder in his children.

But from this construction of the act it necessarily follows, that neither Lamb or Squires took any interest in the remainder the same being limited by the act to the *children* of Daniel H. They are *not* his children but the children of his daughter who died before him and therefore before the remainder vested. Neither can they take an interest in such remainder as his heirs, because although the act limits the estate to the "children *or* heirs" of the deceased settler, it does not grant it to both children and heirs if the terms should include different persons, as in this case. The natural and most reasonable meaning of the phrase is to the children first and in default of those, to whoever may constitute the legal heirs of the deceased. Lamb vs Starr (1 *Deady's*, 358). As to these plaintiffs, then, the finding of the Court must be that they are not the legal owners of one-fifth each of the premises or any other portion thereof, and therefore judgment must be given against them, while the plaintiff Mizner is entitled to recover a ... interest instead of a three fifth.

But it is contended for the defendant that Daniel H. died seized of an estate of inheritance in the premises which thereupon descended to his children *as his heirs*, and that therefore neither they nor their grantee, Mizner, can maintain this action unless he could, if living. If the premises are correct the conclusion follows. Let it be assumed then for the present that the children of Daniel H. took as his heirs and not as donees of the United States, or in other words, that he died seized of an estate of inheritance could he if living, have maintained this action? Counsel for the defendant admit that he could be, being the owner of the legal estate, unless he would be barred by the statute of limitations.

This question involves the enquiry, when did the title vest in Daniel H., and thereby give him a cause and right of action against an adverse occupant, and what is the nature and effect of the occupancy of the premises as shown on behalf of the defendant?

It is the settled law of this court until otherwise determined by a superior, that a settler under the donation act had a present grant by force and operation of such act from the date of his settlement, unless such settlement preceded in point of time the passage of the act, in which case the grant took effect from the date thereof, and not before. Fields vs Squires (1 *Deady*, 378).

This being so, Daniel H., if living might have maintained this action, even admitting that the defendant by himself or those with whom he is in privity of possession, had been in the continuous open and adverse possession of the premises from the date of the grant by the United States to Daniel H., up to the commencement of this action, because he would have been siezed at the date of such grant, which was within twenty years prior to the bringing of the action.

In Doswell vs De la Lanza et al (20 *How* 32) the defendants were in possession of the premises in controversy without title, prior to the seizin of the plaintiff, and the court said that "in regard to him they cannot be considered as having ejected him by their entry, *his legal title not having then accrued*."

The defendant entered without title and has never acquired any, and unless there has been a continuous adverse occupation of the premises for twenty years by him or those with whom he is in privity, the plea of the statute of limitations cannot be upheld. It is urged, however, that for the purpose of preventing a recovery in this case and protecting the defendant in his possession, the Court ought to hold that the title of Daniel H. took effect by relation from the date of his settlement in 1848.

The insuperable objection to this proposition is, that the occupation of Daniel H. was not commenced under the act making the grant, and prior to its passage had no relation to it whatever. Fields vs Squires (*supra* 378). In Gibson vs Chotean, (13 *Wal.*, 101) *Mr. Justice Fields*, delivering the opinion of the Court, says "The doctrine of relation is a fiction of law adopted by the Courts solely for the purpose of justice, and is only applied for the security and protection of *persons who stand in some privity with the party that initiated proceedings for the land and acquired the equitable claim or right to the title.*"

Now, if the defendant had entered under Daniel H. or claimed an interest in or right to the land in pursuance of some contract made with the latter while he was in the occupation of the premises, there would be some propriety in holding that the grant to Daniel H. took effect by relation from the commencement of such occupation, if that were necessary to protect the defendant's rights under such entry or contract. But in the case at bar the application of the fiction of relation would work an injustice rather than otherwise. The defence is simply an adverse possession for twenty years. There is no privity between the parties to this action. Vaughn and those under whom he claims are strangers to Daniel H. and his title. So far as he and his children are concerned, they are and always were mere intruders upon the premises.

As was said by the Court *Sawyer J.*, in the opinion in the equity suit above mentioned: "There is no direct contract relating to these lots, either verbal or written, upon any consideration moving between the parties, Lownsdale, and complainant Vaughn, or any of the latter's grantors. * * * * He (Lownsdale) never purchased the lots and never had or claimed any interest in them, till he acquired an interest under the said Donation Act. It was, therefore, a matter of no concern to him what use was made of them by the parties in possession, before he himself acquired any rights therein, and he had no occasion to object to, or interfere with, the action of the possessor or the claimants under Pettygrove."

But it is not admitted that Vaughn's possession has any of the elements necessary to make it a bar to this action even if the grant to Daniel H. were held to take effect by relation from September 22, 1848, the date of his occupation.

In the first place, he is not shown to have any privity with any one that ever was upon or *about* the premises, either by deed or actual possession, except Stephens as to lot 1 in block 5. In that instance the evidence shows that Vaughn obtained a deed from Stephens, the grantee of Pettygrove and Stark on September 26, 1856. But admitting that Stephens occupied the lot adversely to Daniel H. for some years after the grant to the latter, there is no evidence as to the character or even the fact of Vaughn's possession.

As to lot 3 in block 5 there is no direct evidence that the defendant ever had possession of it, or that he is connected by deed with Pettygrove. A deed dated September 21, 1858, for this lot, executed by Thomas Smith as guardian of his minor son, A. O. Smith, the grantee of Albert E. Wilson aforesaid to the defendant, was offered in evidence, but not admitted, for want of authority in the guardian to make the sale. So it is probable that the defendant's *claim* to this lot does not go back farther than that date.

Lot 8 in block 5 was attempted to be conveyed to defendant on February 17, 1857 by Gilbert and Rockwell the successors in deed to Hugh O'Bryant, Pettygrove's grantee, by Pomeroy, as their attorney in fact, but no authority to Pomeroy being shown, the deed was not admitted. There is no testimony to show that the defendant ever actually occupied the lot, and his claim to it probably commenced at the date of this supposed deed from G. and R., and grew out of it.

Lot 2 in block 15 is not shown to have ever been claimed or occupied by defendant, and there is no proof that he is the successor by deed or possession of Pettygrove or his grantees. The south ½ of lot 4 in block 2 on which there are valuable improvements, was purchased of Anderson in 1855, but how long prior thereto and under whom or what circumstances he occupied it does not appear. The defendant testifies that he has been in actual possession since the purchase from Anderson, but makes no proof that he is the successor by deed or possession of Pettygrove or his grantees.

As to the claim under which the defendant occupied the lot, it may reasonably be inferred from his deposition and the statements in his cross bill aforesaid, that he regarded Daniel H. as the legal owner of the property, but expected to get a title from him in pursuance of a certain bond given by Daniel H. to Pettygrove upon the abandonment of the land claim by the latter, and it is probable that all the other lots in controversy were *claimed* under the same circumstances and expectation.

Upon the evidence then, there is no ground to maintain that Vaughn or any one with whom he is in privity either by deed or possession, taken separately or together, had occupied any of those premises in any manner continuously for twenty years before the commencement of this action, unless it be lot 1 in block 5, and in that case, admitting all that is claimed for the defendant, the possession of himself and predecessors could not be held adverse to the title of Daniel H. before it came to him from the United States by the passage of the Donation Act on September 27, 1850.

The defendant in the actions by Lamb and Squires is entitled to judgment that they take nothing by said actions and for costs, and the plaintiff, Mizner, is entitled to judgment for the possession of an undivided ¾ of the premises, and for costs.

DEADY, J.

W. Lair Hill and E. C. Bronaugh, for plffs; *Erasmus D. Shattuck & Theodore Burmester*, for defendant.

Letter from Oregon City

OREGON CITY, Nov. 29, 1872

TO THE EDITOR OF THE OREGONIAN:

At the meeting in this city on Wednesday evening last, a committee was appointed to canvass Portland for aid to rebuild the factory lately burned in this place. One was also appointed to canvass Oregon City. The latter committee is already at work and our citizens are responding with good business sagacity and liberality. Several thousand dollars will be raised here.

Some may think that Portland has no interest in this enterprise. Let me say, however that Portland aspires to a metropolitan position. Its interests are intimately related to every village, town and neighborhood in the whole State. Very little manufacturing is done in Boston, but Boston capital and enterprise encourage and foster this kind of business in all the outlying places available all over New England, and Boston reaps the profits. The same business principle is adopted by New York and Philadelphia, and the same happy results are attained.

Then we trust Portland will aid us in our misfortunes and in so doing benefit herself. Several leading business houses in Portland have already realized large profits in selling the goods manufactured here. We trust the committee appointed will meet with liberal responses, and that our Factory, which was a credit to the whole coast, may in a few months be in full activity again.

W. C. J.

Here is a model obituary:

Four doctors tackled Johnny Smith—
They blistered and they bled him
With squills and anti-bilious pills
And ipecac they fed him
They stirred him up with calomel,
And tried to move his liver;
But all in vain—his little soul
Was wafted o'er the river.

FINANCE AND COMMERCE

Financial.

FRIDAY EVENING Nov. 29, 1872.

Gold in New York to-day, 112⅝

Portland Legal Tender rates 88c buying; 89c selling.

Wheat in Liverpool—Average, 12s 6d@12s 8d, Club, 13s 3d@13s 6d

Home Produce Market

WHEAT.—Market exhibits rather more life to-day, the advance in San Francisco seeming to have influenced the same here, and we learn that a rise of five cents for choice shipping has taken place. There is yet no sure means of knowing that this rise is permanent, nor does the general tone of our exchanges denote such a thing very probable and though we may mistake the indications we believe those who hold back with the idea that Wheat will reach $1 ℔ bushel will have to hold until next harvest. We are glad to be able to say to quote at $1 40@1 45 for best quality.

FLOUR is firm at the figures given on Wednesday, and holders are inclined to act as holders of Wheat are doing. Considerable quantities, however are offering for shipment, and the *Oriflamme* this evening will carry a fair lot. Prices are unchanged.

OATS.—The advance in California noted by us a few days since has created a similar feeling here, and buyers now are free to offer $1 50@1 60 ℔ 100 lbs.

FEED market is well supplied but prices remain firm at our last quotations.

HAY.—There is a good demand at 16@20 ℔ ton. The receipts of to-day have been fair. A great portion of that now arriving is by boat.

POTATOES.—The supply of common is large, and dealers generally pay about 75c ℔ 100 lbs. Choice varieties are quotable at $1.

BUTTER.—The receipts have been large with some disposition towards a decline in rates. Our figures given day before yesterday, however, are retained.

Shipping Intelligence.

The British bark *Channel Light*, from Hong Kong, arrived at her wharf yesterday.

The steamship *John L. Stephens* from San Francisco bound up, will leave that port to-morrow morning.

The British bark *Grasmere* to Queenstown for orders, cleared with 20,861 bags wheat, weighing 26,170 centals, valued at $38,650.

The steamship *George S. Wright* arrived from Sitka, and way ports last evening with 50 tons coal and 18 tons oil and peltries.

The steamship *Oriflamme* sailed this afternoon at 4 o'clock for San Francisco with about 500 tons assorted freight.

By our dispatches it will seem that Messrs Corbett & Macleay of this city, have purchased the steamer *Sparrow Hawk* at Victoria, for $20 000. In what way they propose to employ her has not yet been made public.

EGGS.—The market is unchanged, with considerable receipts and a fair demand.

ONIONS—Seem inclined to keep rising and we now quote 2@2½ cents per pound.

DR. RESSER,

Third st., bet. Mill and Market streets,

SECOND DOOR FROM CORNER OF MARKET.

DR. RESSER HAVING LOCATED HIMSELF IN Portland, permanently, makes both

Liver & Lung Diseases

A SPECIALTY,

And is now prepared to treat patients for those diseases. Not being fortunate enough to have treated a great many eminent and distinguished persons, whose names are most generally emblazoned to the world by advertising physicians, but at the same time I can produce numerous and voluntary testimonials from those I have treated for the above diseases!

It is well enough known throughout California that I am the possessor of a secret to prepare a medicine, purely vegetable, for the above diseases, and have made some of the

Most Remarkable Cures on Record.

And in cases which were entirely despaired of by other physicians.

A Card to the Public.

Having learned that Dr. H. RESSER has located himself in Portland, I deem it my duty to the public, and more particularly those persons who may be afflicted as I have been. After leaving Portland, a few months ago, I became afflicted with Epileptic Fits and after having tried and consulted several distinguished physicians, without any benefit whatever, I was advised to call on Dr. H. RESSER, who happened to be visiting Virginia City at the time on professional business. I lost no time in placing myself under the care of DR. RESSER, and am now restored to perfect health. I can most highly recommend DR. RESSER to those who may be equally afflicted.

FREDERICK FORNER

Other Testimony.

MR. EDITOR: I saw in your last issue of the *Press* a card written by Mr. Robinson, and I deem it my duty also to make a similar statement for the benefit of those who are troubled with disease of the lungs. Three years ago I commenced under the treatment of some of the most skillful physicians of the Atlantic States, who pronounced my case Bronchial Consumption. After treating with them about two years, with but little benefit, I was advised a change of climate, which I made, and came to Santa Barbara about a year ago with the hopes of a speedy recovery, but could not see that the change had been what I anticipated until a month since I commenced under the treatment of Dr. RESSER, and have improved in health very much in that time, and am confident in a short time I will be restored to perfect health under his treatment. I cordially recommend DR. RESSER to the public.

MRS. M. L. REYNOLDS

Santa Barbara, June 21, 1871.

Card.

ST CHARLES HOTEL
SANTA BARBARA, CAL. May 26, 1871.

I consider it my duty to the public to make the following statement, hoping that some unfortunate invalid may be benefitted by it. Having been sick for some time with lung disease (or consumption) I applied to many physicians in San Francisco and other places, under whose treatment I found no relief. A short time since I met Dr. Resser here in Santa Barbara and knowing of some of the wonderful cures he has made in different parts of the State I put myself under his treatment, and commenced to improve immediately. I can warmly recommend Dr. Resser to all who are afflicted with this dreadful disease, as he makes the lung and liver disease his specialty.

ELIJAH ROBINSON.

Card.

It is well known here that I have been under the doctor's care for the last twelve months in San Francisco and here but could receive no benefit from any one. When Dr. Resser arrived here, a short time ago, I put myself under his treatment, and commenced to improve immediately, and I am confident that in a short time I shall be restored to my health again. I can highly recommend Dr. Resser to the public.

COLEMAN O'DONNEL

Virginia City, Oct 16, 187_.

Card.

To remove all doubt from the public mind in relation to a question which has created some dispute in San Jose I feel it my duty to make the following public statement of facts. It is well known that my wife was very low with consumption—in fact that I had given up all hope of her recovery. I called on Dr. H. RESSER, who makes consumption his specialty and in two weeks time my wife's health had so improved that she was able to walk out and for the last three weeks has been on a visit to San Francisco and is growing stronger every day. I can recommend DR. RESSER to all who are afflicted with diseases of the lungs.

CITY ADVERTISEMENTS.

Ordinance No. 1255.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of College street lying between Fourth and Fifth streets.

The city of Portland does ordain as follows:

Section 1. The proposed improvement of that part of College street lying between the center of Fifth street and the west side of Fourth street shall be completed as hereinafter provided, on or before the 1st day of January, 1873.

Section 2. The surface of the street shall be cleared of all plank, timbers or other obstacles or perishable materials (sidewalks of the proper width and cistern covers excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner, they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading, wholly covering the roadway and intersections with plank, and putting in box gutters in the intersections.

Section 4. The grading shall be such as to present a uniform surface for the planking to rest upon with which it shall be in contact at every point.

Section 5. The bottom plank of the gutter shall be sixteen inches wide, the curb and the outside stringer shall form the sides, the outside stringer shall be set edgewise, and be of such width as to extend to the bottom of the gutter planks, to which it shall be securely spiked.

The center stringer shall be twelve inches wide; there shall be three stringers eight inches wide laid at equal distances apart between the center stringer and each outside stringer. The covering plank shall be not less than eight nor more than twelve inches wide. All plank and stringers used in the improvement shall be four inches thick.

The planking of the center line of the street shall be on grade; at the outer end the planking shall be four inches below grade, as near as may be, with a gradual slope to the cross street or cross-walk.

Section 6. On the intersections with the cross streets the planking shall be laid as follows:

Commencing at a point three feet from the side line of the street and parallel therewith, the planking for a distance of six feet shall extend from the center of the street or cross-street across the gutter to the curb on the grade, or as near thereto as practicable, to serve as cross-walks. The planking outside of the line above named shall slope to the planking of the street between the blocks and conform thereto.

Between the lines of the cross walks the planking, eight feet each side of the center line of the street or cross street, shall be laid on the grade.

At the gutters, on a line from the center of the street to the corner of the sixteen feet flat roadway above described the top of the plank shall be two inches below grade and slope upwards to the cross walk and plank roadway.

On the south side of the intersections the gutters shall be twenty four inches wide and not less than six inches deep in the clear.

The covering plank shall form the top, the sides serve as sleepers, and the bottom plank securely spiked thereto.

The stringers shall be eight inches wide, and in no case more than six feet apart.

Section 7. Under every joint in the stringers or gutter planks a strip of plank two feet long, eight inches wide, and two inches thick, shall be firmly imbedded in the earth.

The stringers and gutter planks shall be sixteen feet in length, as near as may be and at every stringer joint and stringer the planking shall be nailed with two seven inch spikes, to weigh five to the pound, all spikes shall be driven at right angles to the surface of the plank, and at least one fourth of an inch below the surface.

The joints to be broken alternately, and all the work to be done in a workmanlike manner and finished up neatly.

To prevent wash at the outer line of the plank roadway, a plank sixteen inches wide, set edgewise, shall be imbedded in the earth, the top to be on a line with the planking.

Section 8. The provisions of sections 11 and 12 of Ordinance No. 793 shall apply to all lumber and material used in the improvement herein provided for.

Section 9. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner, who shall have the supervision thereof.

Passed the Common Council, November 20, 1872.

W. S. CALDWELL,
Auditor and Clerk.

Approved November 22, 1872.

PHILIP WASSERMAN,
Mayor.

Young men having weakened and injured their constitutions by secret habits need have no fear in calling and consulting me as all communications are strictly confidential and a sure of a permanent cure where treatment is followed.

Special attention given to the treatment of stricture and to all who are suffering from such, I can warrant a cure.

Diseases of the Kidneys, Bladder, Piles, Dropsy, Cancers, and all other ailments successfully treated.

To Ladies who are dragging out a life of misery, on account of debility, sterility, obstruction, and many other diseases peculiar to the sex can find relief by calling.

The celebrated FEMALE REGULATOR PILLS sent free by mail to any address on receipt of $5 00 per box. Certain and safe in all cases.

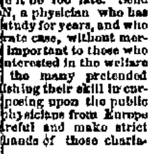

Office consultation free of charge. All communications strictly confidential. Office hours, 11 A. M. to 4 P. M., and 7 to 8 P. M.

DR. C. G. GLASS

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases,

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Post Office Box 1,957. REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.
